

Your Benefits:

- Extend the life of your roof and of your shingles
- Increase your living comfort
- Regulate the moisture in your roof
- Allow excess heat and water vapour to escape from the roof
- Allow air to circulate between insulation and roof deck
- Prevent humidity from damaging the roof construction
- Cool down the roof in hot weather conditions
- Prevents ice-dams after snow

>>> Armourvent® Multi Plus

Vents

Ventilating your shingles roof will equalise the temperature of the outer and inner roof. Your roof structure will then be able to withstand sudden temperature changes.

ACCESSORIES • Vents

• IKO Armourvent® Multi

ventilation system provides you a fabulous roof without visible appliances. The unique design consists of a thin but ultra-strong profile ensuring a smooth, straight and virtually invisible roofline. The quick and easy installation is time saving.

• IKO Armourvent® Ridges

are designed to ensure a smooth straight roofline; thanks to their internal baffle system, they keep out rain, snow, leaves and insects.

* Not for IKO Armourvent® Special

(* Registered average values)

• IKO Armourvent® Special

are trendy aluminum vents designed in such a way that they are hardly noticeable on a shingle roof. The aluminum and special protective coating make them a durable solution; their angled internal baffle keeps out external elements like birds, insects, snow and water.
