

>>> Armourvent® Multi Plus

Your Benefits:

- Extend the life of your roof and of your shingles
- Increase your living comfort
- Regulate the moisture in your roof
- Allow excess heat and water vapour to escape from the roof
- Allow air to circulate between insulation and roof deck
- Prevent humidity from damaging the roof construction
- Cool down the roof in hot weather conditions
- Prevents ice-dams after snow

Vents

Ventilating your shingles roof will equalise the temperature of the outer and inner roof. Your roof structure will then be able to withstand sudden temperature changes.

ACCESSORIES • Vents

• IKO Armourvent® Multi

ventilation system provides you a fabulous roof without visible appliances. The unique design consists of a thin but ultra-strong profile ensuring a smooth, straight and virtually invisible roofline. The quick and easy installation is time saving.

• IKO Armourvent® Ridges

are designed to ensure a smooth straight roofline; thanks to their internal baffle system, they keep out rain, snow, leaves and insects.

* Not for IKO Armourvent® Special

• IKO Armourvent® Special

are trendy aluminum vents designed in such a way that they are hardly noticeable on a shingle roof. The aluminum and special protective coating make them a durable solution; their angled internal baffle keeps out external elements like birds, insects, snow and water.
